MIDI Architekci

[Kozminski University]

Case Profile of MIDI Architects

Midi architects offer services in three main areas: passive and energy efficient family houses, public buildings and public space design, cohousing design.

Economic Value:

The costs of energy for their clients are significantly reduced.

Economic Sustainability

Social Value

MIDI aims at rising the quality of public spaces, improvement of community living and the promotion of sustainable lifestyles.

Social Sustainability

Ecological Value

Passive and energy efficient building enables energy saving. The architects make an effort to calculate carbon footprint of the materials used for the construction in order to reduce it.

Ecological sustainability
