WP 4 Case Study

Case Profile of Kartoffelkombinat

Thinking global, acting local - a CSA-initiative building up regional supply structures

Economic Sustainability

Economic Value

Fostering local supply structures by providing vegetable boxes at an affordable transparent and competitive price as well as paying employees above the average pay scale.

Social Sustainability

Social Value

Building up an independent community-based local food supply as well as village-like community structures for Munich households while promoting small nurseries and farms around Munich.

Ecological Sustainability

Ecological Value

Providing vegetable boxes from locally grown vegetables according to organic farming practices as well as raising awareness for sustainability related topics.
